High Speed Drilling

- Excetek Small Hole EDM's are high speed hole drilling machines for tough materials used in die, mold, aerospace, medical and fuel injection applications.

Simple User Interface

- Excetek's range includes simple machines as well as full 5-axis motion with a very simple user interface.

Versatility

- Excetek CNC Small Hole EDM's can be equipped with Auto Electrode Changers (AEC) and Auto Guide Changers (AGC) and rotary tables for angles and compound angle applications.

ADDITIONAL INFORMATION

Work table size (WxD)	35.43 x 23.62 in
X/Y axes travel	31.50 x 23.62 in
Z axis travel	15.75 in
W axis Travel	15.75 in
Electrode size	Ø 0.15 ~ Ø 3.0 mm
Maxi. electrode length	23.62 in
Maxi. workpiece height	21.65 in
Maxi. workpiece weight	3306 lbs
Machine weight	7054 lbs
Input power	10.50 A (4.0 KVA)
Machine dimension	98.6 x 98.4 x 118.1 in
Power Needed	220 v +5%, 3 Phase, 60 HZ
Power Capacity	10.5 A (4 KVA)
Air Needed	100 psi
