

## FUJI ANS-3100 LATHE

Call for pricing

[1-815-597-5341](tel:1-815-597-5341)

Create a pass through system by integrating our modular single spindle ANS-3100 Lathe with a Fuji turning, milling or cutoff lathe, and increase throughput.

- Built-in L290H Fuji swing arm robot
- Hardened and ground box way construction
- 90° bed for excellent chip flow
- Machines a workpiece front and back with turning, facing, threading, grooving and boring in a single set-up unmanned
  - FANUC 18i-TA Control
