The Hurco VMX30Di CNC vertical milling machine is the perfect combination of performance and flexibility. With its large work cube, it allows more flexibility for a wider variety of work. High torque, fast feed rates, 15,000 rpm spindle, and a heavy rigid frame allow for the best quality and performance for almost any application. Exceptional cutting feed rates are achieved with patented high-speed motion technology - resulting in the fastest cut with the best surface finish.
